

METAL STAMPING EQUIPMENT

Press Shop Automation supplies and services a wide range of metal stamping presses and associated equipment from leading manufacturers around the world.

Due to their long standing partnerships with these world leading suppliers, they are able to bring to their customers in Australia and New Zealand world-class products and up-to-date technology for their metal stamping needs.

PSA exercises a duty of care to deliver machinery to the market which is safe to use by their customers' employees. PSA work in parallel with their customers to ensure all machinery is fitted with the correct guarding, be it physical guarding or light curtain type guarding, and also electrical and electronics safety systems.
