

PLASTIC INJECTION MOULDING

Roblan's Injection Moulding Division is equipped with the latest European technology to meet their customers' needs.

Capacity from 25t to 500t

Processing most Thermoplastic Materials

- Insert Moulding • Assembly
- Overmoulding
- Heat Welding
- Ultrasonic Welding
- Post Machining
- Pad Printing • Robotics

- Automotive
- Electronics
- Retail
- Medical
- Building

METAL STAMPING

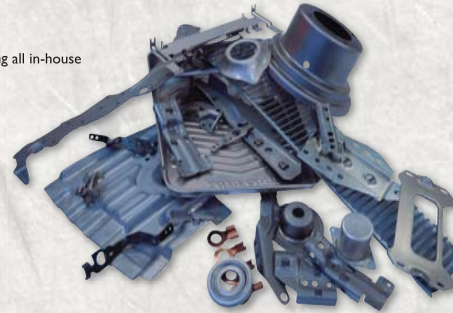

In-house design / manufacture / production

High and low volume production
Spot-welding / rumberling
Sub-assembly

Tooling,
Metal Stamping and Plastic Moulding all in-house

Preventative Tooling Maintenance
Through Stroke Load Monitoring
Foolproofing - Die Protection
Auto Die Lubrication
Die Sensors

- Telecommunications
- Packaging
- Mining
- Engineering

TOOLMAKING

• Press Tools • Injection Moulds • General Engineering

- Wire Cutting
- Machining Centre
- Surface Grinding
- CMM
- EDM
- Jig Grinding
- Turning

IN-HOUSE DESIGN
EXPERIENCE IN PROGRESSIVE
AND DEEP DRAW TOOLING

NEW TOOLING MODIFICATIONS AND PREVENTATIVE MAINTENANCE

ROBLAN SET THE BENCHMARK FOR CUSTOMER SATISFACTION

PRODUCT LINES

• Buy Direct • Ask for a Catalogue • Ask for a Quote

PLASTIC FASTENERS

Manufactured from nylon and polypropylene

Used where insulation, vibration, toxicity and corrosion is a problem

Weight saving and non magnetic

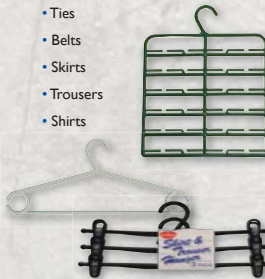

HANGERS

Complete wardrobe requirements

Suit adults and children

- Ties
- Belts
- Skirts
- Trousers
- Shirts

COIL HANDLING CAPABILITY

Up to 600mm wide
Up to 8mm thick
Up to 6000kg

MATERIAL TYPES

• Steel • Aluminium • Brass
• Copper • Stainless Steel

PRESSING CAPABILITY

30 to 260 tonne
4 x 260t Press Transfer Lines
2 x 250t Presses
1 x 150t Press
